Glen,

We have corrected the discrepancies listed below, and will forward to you, the corrected copies. I did not copy all of the transcriptions again. I sent only copies of those pages requiring corrections.

I will send the corrected copies out tonight via FedEx and you should have them tomorrow morning.

Let me know if you find something we overlooked.

ThanX,
 Arnie

Arnold per your request, I identified the following list of corrections:

1. On all of the transcripts in the "SUBJECT" box, there needs to be a " ; " (semi colon) inserted in between the word Accident;AAL77.
 2. HNN-R Trans. 1242:19 and 1242:23, does DAC RA ask and then answer his own question?
 3. BTV R Trans. 1305:54 should be 1307:54. Also 1333:59, sounds like it carried over into the next whole minute, therefore 1334 should be removed.
 4. None of the personnel statements have the accident number and call sign in the upper left hand corner.
 5. Certified Index. This was dated the same day as the accident. This implies that the form was signed that day. Just curious.
 6. 8020-6-1, Accident number and callsign in upper left hand corner.
 7. 8020-6-1, 1240 UTC, "HHN" should that be HNN?
- These are just some of the things that I noticed, I was

curious on

some of the items. Call me if we need to talk about
this.

Thanks,

Glen

Did you find any guidance from our friends in the east about the certified index for AAL77. ZDC wanted only 3 pieces of data, however, the 8020-11 has a different opinion when a NSS is not used.
